Early Childhood Assistant

I was raised in Pleckhausen, Altenkirchen in a huge old mansion along with my three siblings. I had a great childhood and I want to make sure that every child has fond memories of their young days to remember later on in life. That's why I started to work at Tache Community Day Care in September 2013.

While growing up I loved drawing pictures, my mom's goodnight stories, playing dress-up, scrapbooking, doing cart-wheels down the street with my friends, throwing apples to the neighbouring chickens, running in the rain, playing in the tree house, building a sand castle, swinging on the swings, running away from stray dogs (just kidding), or having a starring-at-the-sun contests.

Future goals I have are to always be safe, to plan fun activities for the kids, to try to use my creative imagination as much as possible, to make a change in the world, to keep playing music, to follow my dreams, to be the best aunty ever to my nephew, to be a great sister, a great friend and a caring employee.
