

Kathy

Early Childhood Educator III

My name is Kathy and I have worked at the daycare for 2-1/2 years both in the office and with the school-age program. I am a graduate from the University of Manitoba with a Bachelor of Education and from Assiniboine Community College with an ECE III in Early Childhood Management.

My childcare philosophy is lengthy but can be summed up in one word – RESPECT. Children are individuals with varying needs, personalities, and interests. We must present an environment that promotes inquiry and discovery while respecting their interests (utilizing the tenets of emergent curriculum).

My personal interests vary but include traveling (my dream is to go on safari in Africa and visit the pyramids of Egypt), music (playing piano), and spending time with family and friends.
